NO SODA NOVEMBER

(A note from our P.E. Teacher, Mrs. Hagerty)

One out of three children are overweight or obese. The American Heart Association is working each day to ensure that all Americans have a long healthy life. Unfortunately, it is expected by 2035, that 44% of all Americans will have some form of cardiovascular disease. A leading cause of obesity is sugary sweetened beverages.

Join our school and the American Heart Association by having a No Soda November.

Research has shown that this generation of students is expected to live five less years than their parents. A combination of poor nutrition, the lack of physical activity and the increased consumption of sugar-sweetened beverages has caused an all-time high in childhood obesity. The American Heart Association recommends less than 8 oz. of sugar-sweetened beverages a week for children. Join our school and the American Heart Association by having a No Soda November.

Facts on Sugary-Sweetened Beverages:

- Most Americans consume nearly 20 teaspoons of added sugar each day. That's triple the recommended limit for women and double for men.
- Sugary-sweetened beverages like soda and energy/sports drinks are the #1 source of added sugars in our diet.

- A can (12 FL OZ) of regular soda has about 150 calories and 10 teaspoons of added sugar.

GIVING TREE AT LES

We have a “Giving Tree” here at LES and we need your help to make sure all the children with ornaments on this tree have a wonderful Christmas. If you are interested in helping, please stop by the school office to select an “ornament”. Each ornament provides information on the age of a child and a gift he/she would like for Christmas. We ask that you wrap the gift you purchase and attach the ornament for identification. All gifts need to be dropped off at Mrs. Nosek’s or Mrs. Bates’ office at the elementary school by Wednesday, December 13.
